Latécoère wins contract with Boeing for the 777

Boeing has selected Latécoère to provide a new Flight Deck Switch Panel and Digital to Analog converter, allowing the flight crew to video monitor the cabin and/or cargo from the cockpit on their avionics display from multiple video cameras located in the airplane. This system will be installed on Emirates' existing 777 fleet.

“This is a great first collaboration with Boeing Global Services and builds on our long-running relationship with Boeing,” said Denis Bretagnolle, Executive Vice President of Latécoère (Interconnection Systems branch).

Latécoère started working with Boeing in 2004 when it was awarded to design and supply the passenger doors for the 787 Dreamliner.

Latécoère also supplies a range of HD landscape cameras, for 777 and 747-8, as well as surveillance systems for 737 MAX and recently 777X.

About Latécoère

Latécoère is a tier 1 partner to major international aircraft manufacturers (Airbus, Embraer, Dassault, Boeing and Bombardier), in all segments of the aeronautical market (commercial, regional, corporate and military aircraft), specializing in two fields:

- *Aerostructures Industrial (65% of total revenue): fuselage sections and doors.*
- *Interconnection Systems (35% of total revenue): onboard wiring, electrical harnesses and avionics bays.*

At 31 December 2016, Latécoère employed 4,338 people in 8 different countries.

Latécoère, a French corporation (société anonyme) with capital of €188,398,504 divided into 94,199,252 shares with a par value of €2 per share, is listed on Euronext Paris - Compartment B. ISIN codes: FR0000032278 - Reuters: LAEP.PA - Bloomberg: LAT.FP
