The authorization granted by the General Meeting of May 13, 2019, to buyback the Company's shares expires on November 13, 2020.

The proposal is made to you today to give the Board of Directors a new authorization to buyback the Company's shares for a period of 18 months

The share buybacks allow an investment services provider to act on the secondary market and ensure the liquidity of Latécoère's share by means of a liquidity agreement in compliance with the practice accepted by the regulations, as well as to subsequently cancel the shares in order to improve the profitability of equity capital and earnings per share.

The buyback can also enable external growth transactions, be used to set up programs for employees or corporate officers, stock option plans or bonus share allotment plans, provide cover for investment securities giving entitlement to the allotment of Company shares under the legislation in force, and implement any other market practice authorized by the market authorities.

We therefore propose that you renew this authorization as follows:

Maximum purchase price	€6 per share
Maximum percentage held	10% of the share capital
Maximum amount of the acquisitions	€56,900,000

B. THE EXTRAORDINARY PART OF THE GENERAL MEETING

 - the identification of the holders of bearer shares,
 - directors' compensation,
 - the calculation of the majority at a General Meeting,
 - the ability for the Board of Directors to take decisions by written consultation,
 - the directors representing the employees,
 - the role of the Board of Directors;
- (ii) to delete the inclusion of certain legal and regulatory texts in the bylaws in order to anticipate any modifications to them in the future and to delete specific references to the articles of the French Commercial Code which could become obsolete in the near future because of the plan to revise the French Commercial Code;
- (iii) to modify the provisions on crossing statutory thresholds, to cancel the qualified majority rule inside the Board of Directors for certain important decisions and to lower the minimum period the same shareholder must hold registered shares in order to benefit from double voting rights from four to two years;
- (iv) to correct a material mistake concerning the Company's duration.

The proposed changes are in the bylaws which are appended to this report.

Textual references applicable in the event of a code change (Resolution n° 24)

Resolution n° 24 proposes that the General Meeting acknowledge that the textual references mentioned in all the resolutions which are submitted to it refer to the legal and regulatory provisions applicable on the day they were drawn up and that, if their codification were to be amended, they would be replaced by the textual references of the new codification.

Delegation of authority to the Board of Directors to decide on increasing the share capital by capitalizing premiums, reserves, profits or other items (Resolution n° 25);

Possible uses of the resolution

This resolution enables the Board of Directors to increase the share capital by the successive or simultaneous capitalization of reserves, profits, premiums or other sums which are authorized to be capitalized without adding "new money". This transaction does not affect shareholders' rights, and is reflected by the issue and allotment of bonus shares or the increase in the value of existing shares.

Implementation methods

As stated above, these capital increases would be followed by the issuance and allotment of bonus shares or by the increase in the nominal value of existing shares or by a combination of both methods.

Your Board of Directors shall have the necessary powers to implement this delegation of authority (with the right to subdelegate under the conditions stipulated in the applicable legal provisions).

Ceiling

The maximum nominal amount of capital increases that may be carried out under this delegation would be set at €190 million (except any additional amount which is issued to protect the rights of holders of securities giving access to the Company's capital), and that this ceiling would be deducted from the Overall (Capital) Ceiling of €190 million, stipulated in Resolution n° 35.

Duration

The delegation would be given for a period of 26 months from this General Meeting, and would therefore make the delegation given by the General Meeting of May 13, 2019, in its 11th Resolution, ineffective from this date for the part which has not been used on the date of the General Meeting.

For information, the delegation with the same purpose given by the General Meeting of May 13, 2019 has not been used to date.

Delegation of authority to be given to the Board of Directors to decide to increase the share capital by issuing shares and/or securities giving access to the capital, now or in the future, and preserving the preferential subscription right (Resolution n° 26).

Possible uses of the resolution

This resolution enables your Company to raise funds rapidly and flexibly from all its shareholders in order to ensure that it has the necessary resources for developing the Company and its Group.

Implementation methods

This resolution would enable your Board of Directors to issue:

- ordinary shares, and/or
- ordinary shares giving right to the allocation of other ordinary shares or debt securities, and/or
- securities giving access to ordinary shares to be issued.

The shareholders would have, in proportion to the number of their shares and under the legal conditions, a preferential subscription right ("PSR"), which is negotiable under the legal conditions, to enable them to subscribe for shares and investment securities (non-reducible PSR), for a minimum period from the start of the subscription period set by law (on the date of this report, five trading days).

Your Board of Directors could also decide to give shareholders a reducible subscription right. In this case, if the subscription on a non-reducible basis (i.e. by exercising the PSR indicated above) did not cover the whole of the issue, the unsubscribed shares would be divided between the shareholders who had subscribed on a reducible basis, in proportion to their subscription rights, and within the limits of their applications. If these subscriptions did not cover the whole issue your Board of Directors could decide (i) to restrict the amount of the issue to the amount of the subscriptions, as the case may be, within the limits stipulated by the legislation, and/or (ii) freely distribute all or some of the unsubscribed shares and/or (iii) offer all or some of the unsubscribed shares to the public.

Your Board of Directors shall have the necessary powers to implement this delegation of authority (with the right to subdelegate under the conditions stipulated in the applicable legal provisions).

Price

The price set by your Board of Directors could not be below the nominal value.

Ceiling

The maximum nominal amount of capital increases would be set at €190 million (excluding the additional amount issued to protect the rights of holders of securities giving access to the capital), which would be deducted from the Overall (Capital) Ceiling of €190 million stipulated in Resolution n°35.

The maximum nominal amount of debt securities would be set at €300 million, it being specified that it would be deducted from the Overall (Debt) Ceiling of €300 million stipulated in Resolution n° 35.

Duration

The delegation would be given for a period of 26 months from this General Meeting and would therefore make the delegation given by the General Meeting of May 13, 2019 in its 12th Resolution, ineffective from this date for the part which has not been used on the date of the General Meeting.

For information, the delegation with the same purpose given by the General Meeting of May 13, 2019 has not been used to date.

Delegation of authority to be given to the Board of Directors to increase the capital by issuing shares or debt securities and/or securities giving immediate or future access to the capital or debt securities of the Company, with the cancellation of the shareholders' preferential subscription right, through a public offer (Resolutions n° 27 and n° 28)

Possible uses of the resolution

These issues performed by **canceling the PSR** can be used to perform a share issue under the best conditions, especially when the speed of the transaction is an essential condition for their success. Such a cancellation can enable more capital to be obtained because of the more favorable issuance conditions.

Implementation methods

This resolution would enable your Board of Directors to issue:

- ordinary shares, and/or;
- ordinary shares giving right to the allocation of other ordinary shares or debt securities, and/or;
- securities giving access to ordinary shares to be issued.

These issues would be performed **by canceling the PSR** (i) by way of a **public offering (excluding the offers referred to in 1° of Article L. 411-2 of the French Monetary and Financial Code)** (*Resolution n° 27*) which can include, by a decision by the Board of Directors, a priority period for shareholders or (ii) by way of a **public offering referred to in 1° of Article L. 411-2 of the French Monetary and Financial Code**, i.e. an offer which is exclusively intended for qualified investors or for a limited number of investors acting on their own behalf (*Resolution n° 28*).

In the event of an issue by way of a public offering, in the event that the subscriptions do not absorb the entire issue, your Board of Directors may decide to freely allocate all or part of the unsubscribed securities and/or to limit the amount of the issue to the amount of the subscriptions received, where applicable within the limits provided for by regulations.

Your Board of Directors would have all the necessary powers to implement this delegation of authority (with the right to subdelegate under the conditions stipulated in the applicable legal provisions).

Price

The issue price of directly issued shares **will be at least equal to the minimum stipulated by the applicable regulatory provisions on the day of issue** (to date, the weighted average of the prices of the last three (3) trading sessions on the regulated Euronext Paris market preceding the start of the public offer, with a maximum discount of 10%), after, where applicable, if autonomous stock subscription warrants are issued, taking the issue price of said warrants into account.

The issue price of the securities giving access to the capital and the number of shares to which the conversion, redemption or generally transformation of each security giving access to the capital may give right to, will be such as the amount immediately received by the Company, plus any amount to be received subsequently by it, will, for each share issued as a result of the issuance of such securities, be at least equal to the minimum subscription price defined in the preceding paragraph.

Ceiling

The **maximum nominal amount of capital increases by public offering (excluding the offers referred to in 1° of Article L. 411-2 of the French Monetary and Financial Code)** would be set at **€190 million** (excluding any additional amount issued to protect the rights of holders of securities giving access to the Company's capital), and this amount would be deducted from the **Overall (Capital) Ceiling of €190 million** stipulated in Resolution n° 35.

The **maximum nominal amount of capital increases by public offering referred to in 1° of Article L. 411-2 of the French Monetary and Financial Code** would be set at **€95 million** (excluding any additional amount issued to protect the rights of holders of securities giving access to the Company's capital), and would be deducted from the **Overall (Capital) Ceiling of €190 million** stipulated in Resolution n° 35.

In accordance with the law, the capital increases performed by a public offering referred to in 1° of Article L.411-2 of the French Monetary and Financial Code will not exceed the limits stipulated by the legislation which applies on the day of the issue (to date, 20% of the share capital per year).

The **maximum nominal amount of debt securities** would be, for issues **by public offering (to the exclusion of offers referred to in 1° of Article L.411-2 of the French Monetary and Financial Code) €300 million**, and this would be deducted from the **Overall (Debt) Ceiling of €300 million** stipulated in Resolution n° 35.

The **maximum nominal amount of debt securities** would be, for issues **by public offering referred to in 1° of Article L.411-2 of the French Monetary and Financial Code, €150 million**, and this would be deducted from the **Overall Ceiling (Debt) of €300 million** stipulated in Resolution n° 35.

Duration

These delegations would be given for a period of **26 months** from this General Meeting and would therefore make the delegations given by the General Meeting of May 13, 2019 in its 13th and 14th Resolutions ineffective.

For information, the delegations with the same purpose given by the General Meeting of May 13, 2019 have not been used to date.

Implementation methods

This resolution would enable your Board of Directors to issue:

- ordinary shares, and/or;
- securities giving access to ordinary shares to be issued.

These issues would be performed in favor of the contributors, **canceling the PSR**.

Your Board of Directors would have the necessary powers to implement this delegation of authority (with the right to subdelegate under the conditions stipulated in the applicable legal provisions).

Ceiling

The maximum nominal amount of capital increases would be set at **€19 million, i.e. around 10% of the share capital** (excluding the additional amount issued to protect the rights of holders of securities giving access to the Company's capital), and would be deducted from the **Overall (Capital) Ceiling of €190 million** stipulated in Resolution n° 35.

In accordance with the law, the capital increases and the securities giving access to the capital under this authorization, will not exceed the limits stipulated by the legislation which applies on the day of the issue (to date, 10% of the share capital).

The maximum nominal amount of securities representative of debt securities would be set at **€30 million** and this would be deducted from the **Overall (Debt) Ceiling of €300 million** stipulated in Resolution n° 35.

Duration

The delegation would be given for a period of **26 months** from this General Meeting and would therefore make the delegation given by the General Meeting of May 23, 2019 in its 15th Resolution ineffective from this date for the part which has not been used on the date of the General Meeting.

For information, the delegations with the same purpose given by the General Meeting of May 13, 2019 have not been used to date.

Your Board of Directors would have all the necessary powers to implement this delegation of authority (with the right to subdelegate under the conditions stipulated in the applicable legal provisions).

Price

The issue price for shares **which are issued directly shall at least be equal to the volume-weighted average trading price of the Company's shares on the Euronext Paris regulated market over the last three (3) trading days prior to the setting of the issue price, which average may be reduced by a maximum discount of 20%, if applicable.**

The issue price of the securities giving access to the capital and the number of shares to which the conversion, redemption or generally transformation of each security giving access to the capital may give right to, will be such as the amount immediately received by the Company, plus any amount to be received subsequently by it will, for each share issued as a result of the issuance of such securities, be at least equal to the minimum subscription price defined in the preceding paragraph.

Ceiling

The **maximum nominal amount of capital increases** would be set at **€22 million (excluding** the additional amount issued to protect the rights of holders of securities giving access to the Company's capital), and this amount would be deducted from the **Overall (Capital) Ceiling of €190 million** stipulated in Resolution n° 35.

The **maximum nominal amount of the securities representative of debt securities** would be **€50 million**, increased, as the case may be, by any redemption premium above par, it being specified that this amount would be deducted from the **Overall (Debt) Ceiling of €300 million**, stipulated in Resolution n° 35.

Duration

This delegation would be given for a period of **18 months** from this General Meeting.

Authorization to be given to the Board of Directors to increase the number of securities to be issued as part of a capital increase with or without preferential subscription right, in the context of the over-allotment of options if demand exceeds the number of shares offered (Resolution n° 32).

Possible uses of the resolution

This resolution is intended to avoid reducing subscriptions in the event of a high demand by enabling the Board of Directors to, within certain limits, increase the initial issues, if there is a high demand, by reopening them (the "Greenshoe" clause).

Implementation methods

This delegation of authority would enable your Board of Directors to decide, in accordance with applicable legislative and regulatory criteria, if it establishes that the **demand is higher than expected, during an issue with or without PSR** (issues of shares preserving the PSR as in Resolution n° 26 and issues of shares by public offering with the cancellation of the PSR as in Resolutions n° 27 and 28), **to increase the number of shares to be issued.**

The resolution should be implemented within the time limit stipulated by the applicable regulations on the date of the issue (for information, as of today, within 30 days of the close of the subscription).

Price

The issue price would be the **same price as the price of the initial issue.**

Ceiling

This resolution therefore enables the Company to satisfy a higher-than-expected demand within the limits stipulated by the applicable regulations on the day of the issue (for information, as of today, **15% of the initial issue**).

The **aggregate nominal amount of capital increases** would be deducted from **the ceiling stipulated by the resolution under which the issue is decided** (issues of shares preserving the PSR in Resolution n° 26 and issues of shares by public offerings, with the cancellation of the PSR in Resolutions n° 27 and n° 28) and from **the Overall (Capital) Ceiling** stipulated in Resolution n° 35. **The same applies for ceilings relating to securities representative of debt securities.**

Duration

The delegation would be given for a period of **26 months** from this General Meeting, which would therefore, from this same date, make the delegation given by the General Meeting of May 31 2019, in its 16th Resolution, ineffective for the part which has not been used on the date of the General Meeting.

Authorization to the Board of Directors to set the issue price according to the terms set out by the General Meeting up to a maximum of 10% of the capital, maintaining or canceling the PSR (Resolution n° 33).

Possible uses of the resolution

The use of this delegation can enable more capital to be obtained because of the more favorable issuance conditions.

Implementation methods

This authorization allows the Board of Directors to disregard the conditions for setting prices stipulated in the previous resolutions for issues of shares and/or any other securities giving immediate or future access to the Company's capital or shares, **canceling the PSR**, under the conditions, notably of amount, stipulated in Resolutions 27 and 28.

Price

The Board of Directors can determine the issue price of the shares and securities, without this price being able to be less than 80% of the average weighted share price for the last three trading sessions before the date the issue price is set, and the issue price for securities giving access to the capital must be such that the sum which is immediately received by the Company from this issue, increased, as the case may be, by the price which it is liable to subsequently receive for each share issued as a result of the issue of these securities cannot be less than 80% of the weighted average share price for the last three (3) trading sessions before the date that the issue price is set.

Ceiling

The aggregate nominal amount of increases which can be performed on the basis of this resolution cannot exceed **10% of the share capital over a 12-month period**.

Duration

The delegation would be given for a **period** of 26 months from this General Meeting and would therefore, from this same date, make the delegation given by the General Meeting of May 31 2019, in its 17th Resolution, ineffective for the part which has not been used on the date of the General Meeting.

Associating employees with your Company's capital: delegation of authority to be given to the Board of Directors to issue shares reserved for members of company savings plans, with cancellation of PSR (Resolution n° 34).

Possible uses of the resolution

This resolution enables the Latécoère Group's employees in France and abroad to be offered the chance to subscribe for the Company's shares so that they can be more closely associated with the Company's development and success which is essential for the Group's future growth.

It also enables the legal provisions to be respected, which state that general meetings must rule on a draft resolution which reserves a capital increase for employees who are members of the company's savings plan, if the meeting's agenda includes resolutions which decide or delegate an increase in capital in cash, unless the capital increase is the result of a previous issue of securities giving access to the Company's capital.

Lastly, it enables the Company to comply with the applicable legislative provisions which require, when the employees hold at least 3% of the share capital, a resolution to be put to the General Meeting in order to carry out an increase in capital reserved for employees who are members of a company savings plan at regular intervals, stipulated by the applicable legislative conditions.

Implementation methods

This resolution would enable your Board of Directors to propose capital increases reserved for employees and to issue ordinary shares and/or ordinary shares giving entitlement to the allotment of other ordinary shares or debt securities to members of a company savings plan or the Latécoère Group.

These issues would be performed **by canceling the PSR**.

Your Board of Directors shall have the necessary powers to implement this delegation of authority (with the right to subdelegate under the conditions stipulated in the applicable legal provisions).

Price

The issue price of the securities will be determined in accordance with the conditions provided for by law and may not be more than 20% lower, or 30% lower when the lock-up period provided for by the plan pursuant to Articles L. 3332-25 and L. 3332-26 of the French Labor Code is greater than or equal to ten years (or any other maximum percentage provided for by the legal provisions applicable at the time the price is set), nor greater than the average of the opening prices quoted for the share during the 20 trading sessions preceding the decision setting the opening date of the subscription period (hereinafter the "Reference Price"), nor greater than this average.

Your Board of Directors could also decide, in order to substitute all or some of the discount compared to the Reference Price and/or the employer's top-up contribution, to allot additional shares, although it is understood that the benefit from this allotment could not exceed the applicable legal or regulatory limits.

Ceiling

The **aggregate nominal amount of capital increases** which could be performed under this delegation would be limited to **2% of the share capital on the day of the Meeting** (excluding any additional amounts issued to protect the rights of holders of investors of the securities giving access to the Company's capital).

Duration

The delegation would be given for a period of **26 months** from this General Meeting and would therefore, from this same date, make the delegation given by the General Meeting of May 31 2019, in its 18th Resolution, ineffective for the part which has not been used on the date of the General Meeting.

For information, the delegations with the same purpose given by the General Meeting of May 13, 2019 have not been used to date.

Overall ceiling for delegations to issue shares and securities which are the subject of Resolutions n° 25 to 29 and 31 (Resolution n° 35)

Your Board of Directors could only exercise the options to issue (capital and debt) which you have delegated to it within strict ceilings, and it could not issue shares beyond this limit without convening a new General Meeting of Shareholders. These ceilings are indicated below:

- **Overall Ceiling (Capital):** €190 million,
- **Overall Ceiling (Debt):** €300 million

Authorization granted to the Board of Directors to reduce the capital by canceling treasury shares (Resolution n° 36).

Possible uses of the resolution

The cancellation of shares held by the Company, generally acquired under a share buyback program authorized by the General Meeting, may meet various financial objectives such as, for example, active capital management, optimizing the balance sheet or offsetting dilution resulting from capital increases.

Implementation methods

Your Board of Directors would have the option of canceling all or some of the shares which it could acquire under a share buyback program.

Your Board of Directors shall have the necessary powers to implement this delegation of authority (with the right to subdelegate under the conditions stipulated in the applicable legal provisions).

Ceiling

In accordance with the law, the cancellation of shares is restricted to a maximum **10% of the capital over periods 24 months**.

Duration

The delegation would be given for a period of **26 months** from this General Meeting and would therefore, from this same date, make the delegation given by the General Meeting of May 31 2019, in its 20th Resolution, ineffective for the part which has not been used on the date of the General Meeting.

Authorization to be given to the Board of Directors to reduce the capital by a maximum nominal amount of €66,372,964, i.e. 35% of the capital, by canceling the shares acquired under a public buyback offer for a maximum of 33,186,482 shares (Resolution n° 37)

Possible uses of the resolution

This authorization would allow the Company to buy back a maximum of 35% of its own shares in order to cancel them with the purpose of mechanically increasing the earnings per share and the share price.

Implementation methods

Your Board of Directors would have the option of initiating a public share buyback offer for a nominal amount of €66,372,964, i.e. 35% of the capital, in order to cancel a maximum number of 33,186,482 shares comprising its capital under the following conditions:

Maximum purchase price	€6 per share
Maximum buyback percentage	35% of the share capital
Maximum buyback amount	€199,118,892

Your Board of Directors shall have the necessary powers to implement this delegation of authority (with the right to subdelegate under the conditions stipulated in the applicable legal provisions).

Duration

This delegation would be given for a period of **18 months** from this General Meeting.

Association of the members of the salaried personnel and the corporate officers with your Company's capital and/or of the companies which are affiliated to it: free allotment of existing shares or shares to be issued (Resolution n° 38)

Possible uses of the resolution

We are proposing a new resolution to you in order to associate the members of the salaried personnel and corporate officers with the capital of your Company and/or companies which are affiliated to it by authorizing your Board of Directors to make free allotments of existing shares or shares to be issued to them, **canceling the PSR**.

Implementation methods

This new resolution would enable the allotment of bonus shares subject to performance criteria under existing or new plans and bonus shares which are not subject to performance criteria under the terms and conditions stipulated below.

Your Board of Directors would have the necessary powers to implement this delegation of authority (with the right to subdelegate under the conditions stipulated in the applicable legal provisions).

Ceiling

The total number of free allotments of existing shares or of shares to be issued in the future under this authorization cannot exceed 3.5% of the total number of shares comprising the Company's share capital on the date of the allotment decision by the Board of Directors.

Duration

The authorization would be given for a period of **38 months** from this General Meeting and would be intended to replace the previous resolution with the same purpose which was approved by the General Meeting in Resolution n° 22 on May 14, 2018.

We are proposing a new resolution to you in order to associate the members of the salaried personnel and corporate officers with the capital of your Company and/or the companies which are affiliated to it by authorizing your Board of Directors to attribute stock subscription and/or purchase options to them.

Implementation methods

Your Board of Directors would have the power to grant, on one or more occasions, in favor of members of staff that it shall determine from among the employees and, if applicable, the corporate officers of the Company and of the companies or groupings related to it, options entitling the holder to subscribe for new shares of the Company to be issued as part of a capital increase, **with cancellation of the PSR**, as well as options entitling the holder to purchase shares of the Company resulting from repurchases made by the Company under the conditions provided for by law.

Your Board of Directors would have the necessary powers to implement this delegation of authority (with the right to subdelegate under the conditions stipulated in the applicable legal provisions).

Ceiling

They are held at the registered office or in any other place, in France, indicated in the convening notice.

Any shareholder is entitled to attend the general meetings subject to being able to prove his or her identity and title, and to participate in the deliberations, personally or by means of a representative, provided that the titles are registered to an account ~~within the lawful conditions and time limits in his or her name or in the name of the intermediary registered on its behalf, on the second working day prior to the meeting, at midnight, Paris time, either in the accounts of the registered securities held by the company, or in the accounts of the bearer's securities held by an intermediary as stipulated in Article L. 211-3 of the French Monetary and Financial Code.~~

Any shareholder who is the owner of shares of a specific category may participate in the special meetings of the shareholders of this category.

Any shareholder may be represented by another shareholder, his spouse or partner with whom he has signed a civil solidarity pact, or by any physical individual or legal entity of his choice, in accordance with legislative and regulatory provisions.

Any shareholder may also vote by postal ballot in accordance with the legislative and regulatory provisions. In order to be accepted, any power of attorney and voting form must be received by the company three days before the general meeting.

For the purposes of calculating the quorum and the majority, any shareholders participating in the general meeting by videoconference or by means of telecommunications allowing their identification and of which the nature and conditions of application are determined in accordance with the legislative and regulatory provisions, shall be deemed to be present.

Any shareholder who has cast his or her vote by postal ballot or remotely may no longer choose any other method of participation in the general meeting.

Each member of the general meeting has a number of votes proportional to the share of the capital corresponding to the shares that he or she owns or represents, on the condition that these are not non-voting shares.

However, a double voting right is assigned to any fully paid up shares for which it can be proved that they have been registered for ~~four~~ **two (24)** years at least, in the name of the same shareholder **in accordance with the law**. In addition, in the event of the capital being increased by incorporation of reserves, profits or share premiums, double voting rights are granted, as of their issue, to the registered shares which have been assigned free of charge to a shareholder on the basis of old shares for which he or she enjoys this right.

ARTICLE 19 - RIGHT OF INFORMATION FOR THE SHAREHOLDERS

Shareholders are entitled to a right of information, either temporary or permanent depending on its purpose, in accordance with the conditions specified by the current provisions which ensure that they are provided with the information that they need to know about the situation of the company and the exercise of all their rights.

ARTICLE 20 - TRADING YEAR

The trading year begins on January 1 and ends on December 31.

ARTICLE 21 - APPROPRIATION AND DISTRIBUTION OF THE PROFITS - LIQUIDATION BONUS

The difference between the earnings and the expenses of the financial year, after deduction of the amortisations and provisions, constitutes the profit or the loss for the financial year.

If necessary, five percent (5%) is deducted from the profits of the financial year less the previous losses, to constitute the legal reserve fund. This deduction ceases to be compulsory if the reserve fund has reached a sum equal to one tenth of the share capital; it will resume should for whatever reason the legal reserve fall below this one-tenth.

The distributable profit is made up from the profit of the financial year minus the previous losses and the amounts to be paid to the reserve, and increased by the profit carried forward.

This profit is at the disposal of the shareholders' general meeting which, upon recommendation of the board of directors may carry all or a part of it forward, assign it to the general or special reserve funds, or distribute it to the shareholders as a dividend.

In addition, the shareholders' general meeting may decide to distribute the sums deducted from the reserves made available to it by, in this case, expressly indicating the reserve accounts from which the deductions were made. However, the dividend is deducted as a priority from the distributable profit for the financial year.

The revaluation variation is not distributable; it may be either wholly or partly capitalized.

The shareholders' general meeting has the option of granting to each shareholder in respect of all or part of the dividend or the dividend prepayments distributed, a choice between the payment of the dividends or dividend prepayments in cash or in shares.

With regard to the liquidation bonus, the net assets remaining, after reimbursement of the nominal value of the shares, are distributed equally among all the shares.

ARTICLE 22 - DISPUTES

During the company's lifetime as during the liquidation, any disputes, either between the shareholders, the members of the board of directors and the company, or between the shareholders themselves, concerning company matters regarding the interpretation or performance of the clauses of the bylaws are judged in accordance with current legislation and are brought before the courts which have jurisdiction in the matter.
